## PROJECTS

### Ecommerce Front-end Design

<https://ecommerce-frontend-design-phi.vercel.app/>

- Built a **responsive e-commerce front-end** with React and Tailwind, optimized for mobile and desktop along with product listing page with JavaScript objects.

### Blog Web App Using Local Storage

<https://ali8642.github.io/Blog-Web-App-with-Local-Storage/>

- Built a **responsive blog web application** with HTML, CSS and JavaScript, optimized for mobile and desktop.
- Implemented user authentication and blog management** (register, login, create, and delete blogs) using JavaScript local storage.

### JavaScript DOM To-do Web App

<https://ali8642.github.io/javascript-dom-todo-app/>

- **Developed a core front-end To-Do application** using HTML, CSS and JavaScript, focusing on UI logic and **DOM manipulation** for real-time task display.
- Implemented **in-memory task management** with **CRUD** (Create, Read, Update and Delete) functionality to dynamically update the list.

### Calculator Web App

<https://ali8642.github.io/calculator-webapp/>

- Built a **responsive calculator web application** with HTML, CSS and JavaScript, featuring real-time user input and dynamic calculation results for an interactive experience.

### Jadoo Travel Agency Landing Page

<https://ali8642.github.io/Jadoo-travel-clone-website/>

- **Developed a responsive travel landing page (“Jadoo clone”)** using HTML, CSS and JavaScript, featuring user-friendly interface and transitions.

## EXPERIENCE

---

### Developers Hub Corporation

#### Front-End Developer Intern

July 2025 – Sep 2025

- Built a **responsive e-commerce front-end** with React and Tailwind, optimized for mobile and desktop.
- Implemented **product listing functionality** using JavaScript objects, for seamless user experience.
- Improved **performance and engagement** through optimized images, lazy loading, and smooth UI interactions.

## EDUCATION

---

### Bachelors in Economics

- FUUAST Abdul Haq Campus, Karachi, 2022 – 2026

### Modern Web App Development

- SMIT Zaitoon Ashraf IT Park, Karachi, 2025 - 2026
